

Labor day has been a busy and a long day for some of the BLCC crew, with 7 cars representing the BLCC at the Power FM Begonia parade. With a great variety of vehicles that represent the types of motorsport, 4-wheel driving and social events with the club plated cars. The public came and checked out the cars and asked questions about them and the club. I think the same woman from 2 years ago asked me why we had a 4x4 in it when its called the Light Car Club yet again I explained that a light car is anything under 4.5 tons. Power FM gave us a great wrap as we went past. I would like to thank Dave Stewart, Sean Payne, Kate Meyer, Nathan Stevens, Chloe Wythe, Tim Ogden, Darren Watkins, Andrew and Bruce Bayley, for giving up their last day of their long weekends to help promote the BLCC.
