

Sunday the 14th of August seen the running of Round 4 of the Khanacross series, entries were a little light with only 13 competing on the day. The challenge was to mix it up a little and try and get a set of different outright winners. Each of the tests was designed to suit a drive configuration with trying to achieve a level playing field. And it worked somewhat with 3 out of the top 5 being RWD. I am pretty sure all the single spinners will be replacing at least 1 tyre before the next round. The three tests were run on the bomber and drag strip.

Class A was taken out by Darren Watkins in his trusty Corolla, the hotly contested class B was won by Robert Love a Doughnut Dekker in the ever sliding Silvia from Paul Gladman. Andrew Bayley took out class C in the tyre smoking Corolla. Ben McKee swapped the Subaru for the Escort and took out class D and was also 1st outright. The tyre burning 200b of Reg Johnson took out H class. In Class I we seen ring in Nicholas Charrett in the Escort take out the class and 2nd Outright from the Rev Limiter King Mickey Goossens in the Swift who was also 3rd outright. Sam Casser took out J1 in the tx3 Laser, watch this kid I give you the tip. J2 was taken out by Josh Gay and 6th outright, unsure why but when Richard is out of the car it goes quicker? Can anyone answer this? The biggest class of the day J3 seen the twins fight it out with Chloe Wythe, with Jake Gladman taking the honors from Chloe and 3rd in class was Drew.

I would like to thank Sean Payne for helping to set up and running book in, Dave Stewart for timing and scrutineering, Darren Wythe for also timing and scrutineering. Wayne Holness for timing and helping with Pack up, Mick Goossens for scoring the event and Rod Hall doing the paper work. As always it's a pleasure to direct events and seeing members enjoying themselves.

Thanks Again

Rd 4 Khanacross director
